### Discovering Choices High School Criteria for Returning Grade 12's

The following criteria are considered when reviewing applications for an additional year of high school:

- Throughout this school year you have:
  - complied with the student code of conduct
  - have completed courses and have had regular attendance
- An additional year of high school is not for the purpose of upgrading. An additional year will:
  - support graduation requirements
  - to meet exceptional needs or circumstance
- If in the opinion of the principal, there are other valid reasons to justify an additional year of high school.
